

# Hopkinsville Kentuckian

VOL. XXVIII,

HOPKINSVILLE, KENTUCKY, TUESDAY, OCTOBER 9, 1906

NO. 127.

## STORE NEWS At Anderson's.

The opening is over and now we are settling down to work in earnest. The season is right on us and customers should attend to their wants at once to get choice of styles. Our Ready-to-Wear Department is receiving something new every day. Specials in this department can be furnished very promptly now, but a couple of weeks from now it will require twice as long. The \$5.00 fine All Wool Long Cloaks and the \$10.00 Fine All Wool Lymanville Storm Serge Suits we are showing will cost half as much more at any other store, and so they will at our store when our present stock is sold out.

## Our Shoe... Department.

Was never so well equipped to supply the wants of all classes as it is today. Prices are some higher, but you pay depend upon the quality being the same as heretofore. Any merchant who offers to sell the same shoes at old prices to-day has either been swindling his customers in the past by charging more than the shoes were worth, or is deceiving them as to the quality.

## Winter Underwear

This is the month to buy Winter Underwear. Our stock is complete and has all sizes from infant's to the largest men and women. Some special bargains in men's extra sizes.

## Evening Slippers

In all colors were received this week and if you will bring a sample of your gown we will match it perfectly.

## Second Shipment

Of Knox Derbys will arrive in a few days.

## Second Shipment

Of those elegant Silk Brim Coats for Ladies are on the way.

## We Make

Skirts to order within four days for \$3.00 and \$3.50 each. Absolute satisfaction guaranteed.

## Shoe Repairing

Done promptly free of charge for our customers as far as workmanship is faulty.

## GROSS INSULT AVENGED.

Jno. T. Goode Shoots to Death  
Lindsey Leavell, a Negro.

### INSULTED HIS WIFE.

Was Slain While Digging  
Potatoes at R. K. McCrae's, Jr.

Lindsey Leavell, a negro who lived at R. K. McCrae's, near Pembroke, was shot and killed by John T. Goode, a farmer living on an adjoining farm, Saturday morning. Goode at once came to town and gave himself up. He remained in jail while the grand jury investigated the case the same day. After hearing several witnesses the grand jury voted not to indict and Mr. Goode was released.

According to the story told by Goode and others, Leavell and another negro were hauling a load of fertilizer by Goode's home Friday. They stopped the wagon and while the other negro held the team Leavell went into the house, after one of the small children had told him that their father was from home. Leavell made offensive and indecent remarks to Mrs. Goode, who was alone with her children, and grossly insulted her.

He then went to the orchard and helped himself to apples and Mrs. Goode taking her baby in her arms fled to the house of a neighbor. The negroes then got into the wagon and drove away. When Mr. Goode returned home that night his wife told him what had happened.

Early the next morning he took his gun and went to Mr. McCrae's and told him he had come to kill Leavell, who was digging potatoes near the house. He then went to Leavell and told him he had come to kill him. Leavell protested, saying the other negro was the guilty one, but Mr. Goode told him he was the man he was after, and without further ado opened fire. The first shot was caught by a basket Leavell threw up to ward off the lead. He broke to run and the second shot struck his side and he fell. Mr. Goode then reloaded the gun and fired the third time into his face. In spite of these terrible wounds, Leavell lived several hours—the gun was loaded with No. 7 shot. The other negro was feeding hogs near by and ran away during the tragedy. Leavell's body was buried Sunday.

### New City Directory.

Responding to the many urgent appeals for a new city directory to succeed our Volume II of some years since, we have decided to get out Volume III this fall and have secured the services of Mr. Tola Thornton, a competent compiler of long experience, to superintend the work of census taking, etc. The volume will be very comprehensive and complete in every detail—a strictly up-to-date city directory—bound in board covers and published for subscribers only, at cost of work. Advertising spaces will be so arranged as to give every manufacturing, commercial and professional firm and individual in the city and suburbs an opportunity to assist in "boosting" our growing city. Rates for space made known at office of publication, 212 South Main street, or upon application to census takers when they call.

Citizens will aid us greatly by leaving at their homes full information as to names, occupations, etc., of members of the family, boarders or servants living upon their premises. With your kindly assistance, we will publish a book creditable to all concerned, and the city as well.

Two negro rape fiends were taken from a train 18 miles out of Mobile, Ala., and lynched by a mob of 45 masked men.

## AMUSEMENTS.

The play of "Julius Caesar," in which Charles B. Hansford will appear at Holland's opera house on Friday, October 12, is one which presents such a variety of opportunities that every legitimate actor finds in it a stellar part. Some of the great players select the role of Brutus as the one best calculated to display their powers. Others choose the more subtly and intellectual Cassius. Mr. Hansford makes the eloquent Marc Antony the central figure. Several reasons led Mr. Hansford to that choice. When he played the part with the Booth-Barrett combination he scored an instantaneous hit. When he decided to engage in a starring tour he was closely identified with the part in the public mind. To have selected either of the other roles would have been to challenge comparison with two men whose greatness made them incomparable and it would also have compelled another player to assume the part with which Mr. Hansford had become brilliantly identified.

Seats now on sale.

### "Simple Simon Simple."

Elbert Hubbard says, "If you wish to be miserable you must think about yourself, about what you want, what you like, what respect people ought to pay you and what people think of you." The American people say, in no small voice, that if you want to be happy, you must enjoy yourself, and to enjoy yourself you must see "Simple Simon Simple," Nixon & Rimmerman's extravaganza, which will be here very soon.

### Took Bloodhounds.

Officers Miller and McCord left the city yesterday morning in response to a call at Slaughter'sville. A tobacco barn and crop of tobacco was burned at that place early yesterday morning. The fire was the work of an incendiary and the officers carried the bloodhounds with them.

## OPERA HOUSE

Friday Night, Oct. 12.

## COUNCIL HOLDS BUSY SESSION

Reports the Principal Order  
of Business For Evening.

### SEVERAL ORDINANCES.

Final Settlement Reported  
In the Tax Collector's  
Back Business.

The October meeting of the City Council was held Friday night with the Mayor presiding and all the Councilmen present except Mr. Ware, who was absent from the city.

The usual reports of the city officers were approved and filed.

Mr. J. T. Hanbery, attorney for John H. Bell, appeared and reported that all formalities in regard to the annexation of Bell's addition to the city had been complied with and asked that the court order be entered of record. The order was made by unanimous vote. This adds about 36 acres to the city on the south side. Mr. M. C. Forbes asked that Hopper street, the new street alongside his wagon factory, be graded and that a fire plug be put in on same. The matters were referred to the proper committees.

Henry C. Myers was given permission to open a saloon on Sixth street on October 15.

Messrs. H. W. Tibbs, L. B. Cayce, L. H. McKee and C. A. Brackrogge, a committee, from the National Fraternal Union, asked permission to hold a carnival at Mercer Park from October 15 to 20, which was granted. No confetti will be allowed to be sold or thrown. The usual privileges were granted free of charge.

Chairman Twyman reported that the street committee would remove the cobble stones in Woodard alley and replace them with crushed stone and Health Officer Woodard was directed to condemn as nuisances the sources of filth abutting on the alley.

The paving ordinance on the northern frontage of the South Kentucky College campus was given its second passage. An ordinance was also passed ordering a concrete pavement in front of the Postell property on Sixth street, the pavement to be reduced in width if the owner desires it.

An ordinance was passed regulating the operation of automobiles in the city.

Requests for arc lights on West 15th street, Elm street and other streets were referred to the corporations committee.

A formal request from the I. C. to be allowed to fence their right of way in the city, was referred to the special committee on bridges.

Councilman Jackson brought up the matter of opening a street from Elm street to North Main and the City Engineer was directed to make a survey through the Means property and a committee composed of Councilmen Jackson and Davis was appointed to ascertain the probable cost and report at the next meeting. The committee appointed to apportion the tax settlement check of \$2,201.50, reported that \$1,113.69 of the amount had been assigned to the General Fund, \$723.04 to the School Fund and \$364.79 to the Sinking Fund. Trustee J. P. Braden, of the School Board, appeared and reported that the School Board had accepted the apportionment and the committee's action was approved.

Mayor Meacham reported that the Fidelity Company bonding the police forces had retired from Kentucky and had canceled the bonds of the policemen and that all of them on duty had given good personal bonds.

The new bond of Chief Ellis Roper for \$2,500 was approved by the council. The others had been approved by the mayor, as required by law, for \$1,000 each.

The mayor reported that a case of

## Nice Fall Suits

A nice line of Fall Suits and Skirts just received. Call and see this well selected stock before you buy.

## T. M. Jones'.

selling liquor on Sunday had come to notice, a claim of sickness being the alleged cause. An employee had made the sale, the owner claimed, without his knowledge or consent. A fine of \$27.50 had been assessed and the mayor said in view of the mitigating circumstances he would not ask that the license be revoked, as he had been assured that the offense would not be repeated.

An ordinance was passed repealing the ordinance prohibiting the policemen from giving any bond other than fidelity bonds, in view of the fact that all such companies have retired from the state.

### ARM BROKEN.

Hopkinsville Boy Badly Injured in Louisville.

Mr. Ed. Walpole, the popular young miller, happened to a serious accident last week in Louisville, where he was employed in a large mill establishment. He was attending to some of the machinery when he got his arm caught, breaking it between the elbow and the wrist. Both bones were broken clear in two and the accident is a very painful one as well as a serious one. Mr. Walpole is a son of Mr. R. E. Walpole, night watchman at the Crescent Mills, and is a most excellent young man and his many friends here will greatly regret to hear of the accident. Mr. Walpole is now in a Louisville hospital, but will be brought to this city as soon as he is able so stand the trip, where he will remain until he fully recovers.

### Sale of Lots.

This afternoon at 3:30 is the time for selling at public auction, by the Forbes Manufacturing Company, several building lots. These lots are all desirable for many purposes, situated in the business part of town and will doubtless bring good prices. The lots front 80 feet on Main and 140 feet on Virginia streets, and are known as the Dagg planing mill property.

### Wood's Body Recovered.

Clarksville, Oct. 5.—The body of Express Messenger William Wood, who was drowned in the Cumberland river as a result of the L. & N. railroad disaster last Saturday night, has been recovered near Linton, Ky. It was in a badly decomposed condition. The body will be brought to this city for burial.

### Devil's Island Torture

Is no worse than the terrible case of piles that afflicted me 10 years. Then I was advised to apply Bucklen's Arnica Salve, and less than a box permanently cured me, writes L. S. Napier, of Rugles, Ky. Heals all wounds, burns and sores like magic. 25c at Hardwick's, druggist.

### Only Four Arrests.

There have been but four arrests by the police since last Friday—two for adultery, one for drunkenness and one for carrying concealed weapon.

### BURNED TO DEATH.

Old Colored Woman Meets Horrible Fate at Herndon.

Sallie Boyd, an old colored woman, died a horrible death at Herndon last Saturday morning. She was living with her daughter, and after a fire with which to cook breakfast had been kindled, the daughter went away to work at a nearby residence, leaving her mother, who was eighty years of age, all alone in the house. While she was gone the old woman's clothing caught on fire and when the daughter returned she found her mother's corpse lying at the door burnt to a cisp.

## Good to Remember!

WHY PEOPLE GET THE HABIT!

THINGS OBTAINABLE AT NO OTHER STORE IN TOWN.

**Illinois Central R. R.**  
THE OFFICIAL ROUTE.

The Hopkinsville Company U. R. K. of P. by an overwhelming majority voted to select the ILLINOIS CENTRAL as the most desirable route for this occasion, and arrangements have been made for a special train to leave Hopkinsville about 3:30 p. m., Sunday, October 14th, for the accommodation of the members and their friends, to connect at Princeton with Special Train bearing Ohio and Eastern Kentucky Knights and arriving at New Orleans about 10:00 a. m., Monday, Oct. 15th.

This train will carry Free Reclining Chair cars from Hopkinsville. Also Standard and Tourist Sleepers from Princeton and the service will be first class in every respect.

Between Memphis and New Orleans tickets will be accepted via either the Illinois Central or Y. & M. V., with liberal stop-over arrangements.

Tickets also sold for regular trains October 12th to 15th, inclusive. Return limit on all tickets Oct. 30th, with privilege of extension.

J. B. MALLON, Agt. I. C. R. R.

## Historic Jamestown is to Have a Big Exposition

Ter-Centennial of First English Settlement in America to Be Celebrated Next Year.

Of the holding of exposition there seems to be no end, and Jamestown, Va., is next in line for recognition as the promoter of the exposition type of entertainment and exploitation. And perhaps no place in the country, from historic and romantic associations with the history of the United States is more entitled to the popular interest and patronage than this place in the beautiful garden-land of Virginia.

It is three centuries since the first English settlement in America was made at Jamestown, and it is proposed that the ter-centennial of this event shall be celebrated next year from May 1 to November 1. Elaborate preparations are being made, and the prospects are bright for the holding of a successful exposition.

In connection with the event will be an international naval, marine and military celebration on the waters of Hampton Roads, Va., near the cities of Norfolk, Portsmouth, Newport News, Hampton and the Government Reserve, Fort Monroe.

The site selected is the most historic portion of American territory. The first settlement was at Jamestown Island, about 30 miles from Norfolk up the James river, but on account of the convenient transportation facilities, it was decided to hold the exposition at the most suitable point near Jamestown, where the magnificent naval display could be possible.

Central Portion of Auditorium and Hall of Congress, Jamestown Exposition.

The exposition is to occupy 400 acres of land, and about 280 acres of water between two "grand piers" on Hampton Roads, near Norfolk, Portsmouth and Newport News. It is five miles from Norfolk, and five miles from Newport News. Four miles from Fort Monroe and eight miles from Portsmouth. The exposition will have four miles of water front. There is to be a great military drill ground 30 miles across it. There is to be a canoe trail, two miles long, running from Brush creek through the most interesting part of the exposition grounds. A romantic winding footpath called "Piratical walk" is to follow the canoe trail for a mile or so. There probably never has been an exposition planned whose natural advantages even approximated those of the site for this one.

The grand piers, already mentioned, are to extend 2,400 feet into Hampton Roads from the exposition grounds. They are to be 800 feet wide, and connected by a cross pier 1,200 feet long at a distance of 2,400 feet from shore, inclosing a magnificent grand basin 280 acres in extent.

The exposition will be mainly historical and educational, emphasizing events of national interest, illustrative of the principles of religious, social, political and economic independence first expressed at Jamestown and later established by the founders of our government.

It is not the intention to feature industrial displays as at the world's fair exhibitions at Chicago and St. Louis.

There will be gew-gaw displays of the arts and crafts, fisheries, army and navy appliances, transportation and state's exhibits, and the exposition will be the first one ever constructed which will illustrate a distinctive style of architecture. It will be entirely colonial. All of the buildings erected by the exposition company will be replicas of seventeenth-century structures or elaborations of them. The conception division, called the "War Park," will contain a varied collection of the best amusement enterprises possible to secure. These will be conducted by recognized experts in their various lines.

A number of new features will be afforded. Dirigible balloons and aeroplanes will convey passengers from the shore to the ships. Unusual athletic meets will be held on water as well as land, and salt water bathing on the magnificent beaches will be a feature distinctive from the average exposition.

Naturally the territory surrounding Jamestown is the most historic of the new world. Here it was that Pocahontas saved the life of John Smith, where Sir Walter Raleigh planned to smoke from the Indians, and introduced tobacco to the world; and where, more than two and one-half centuries later, the terrible conflict between the Monitor and Merrimack

took place, which revolutionized the sea-going fighting craft of the world and formed the nucleus from which the modern battleship evolved.

The special points of historical interest connected with the first settlement are Cape Henry, Old Point Comfort and Jamestown. At Cape Henry the ships of Newport's flotilla first anchored, and a cross now marks the spot where the adventurous landing there in 1607 still stands. Point Comfort was their first harbor. It was not demarcated because it afforded no fleet shelter and a safe anchorage for the storm-tossed wayfarers. Jamestown, where the pioneers landed in May, 1607, was the final stopping place of the party.

Hampton, the home of friendly Indians, known as Wecoughtan, is the oldest continuous settlement of Englishmen in America. It is on Hampton Roads, just across from the exposition grounds.

Fortress Monroe, originally a palisaded fort of the first settlers, planned in 1616 and fortified a few years later, is now the finest fortress in America and chief artillery station of the United States government. It stands sentinel before the grounds, separated by ten miles of water, while midway between is the Rip-Raps, a modern fort.

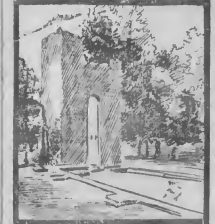

Newport News, where the greatest shipbuilding plant of the country is

Old Jamestown Church Tower on Jamestown Island. (The First Settlement Was Upon This Island.)

located, was first known as Port Nueces, to distinguish it from an older place of the name of Wales. It was there that the men from Jamestown sighted Lord Delaware's ships when he first came to Virginia. Newport News lies at the mouth of the James river, where it empties into Hampton Roads. By the Pamunkey river, an estuary of Hampton Roads, are the cities of Norfolk and Portsmouth and the town of Berkeley. All of these are establishments of the seventeenth century. At Portsmouth is the Norfolk navy yard, and at Norfolk is the chief coaling station of the government.

The most famous naval encounter of the civil war was the battle of the Merrimack and Monitor. This duel

Old Jamestown Church Tower on Jamestown Island. (The First Settlement Was Upon This Island.)

took place in Hampton Roads, within plain sight of the exposition grounds.

Every student of history will remember that on that occasion iron-clad first met iron-clad. This battle will be reproduced during the exposition period, and will be not only entertaining but instructive. Modern navies date from that conflict, and the representatives of all the world's navies will see in 1907 just how the combatants conducted themselves in this struggle without a precedent.

Impossible.

Mr. Pounder—Won't you slug something for me, Miss Proper?

Miss Proper—I can't. Mama isn't here.

Mr. Pounder—But I can accompany you on the piano.

Miss Proper—Oh, dear, not! Mama doesn't allow young men to accompany me anywhere without a chaperon.—Cleveland Leader.

Wasted Effort.

"It takes time, trouble, and infinite patience, of course, to be a good Sunday school teacher, but you get the satisfaction of knowing that you are helping to mold the character of the rising generation."

Yes, but it makes me sad to think how quickly a year's work is undone when grown apple time comes.

## Cheap Lands

IN THE

## Panhandle of Texas!

50,000 Acres to be Sold in 160 acre Tracts or Over.

Fine Land, Ready to Plough, Raises Everything; from 35 to 50 Bushels of Wheat per acre this year. Terms Reasonable.

Prices from \$6 to \$20 per Acre.

PLENTY OF Rain and rich land. No Chills or Malaria. Railroads and schools. Church and sunbath.

### A UNIQUE CALL TO PREACH.

Received the Summons from the Mill Pond Bullfrogs.

Ex-Gov. Anthony Colby, of New London, N. H., was an inveterate story teller, and enjoyed telling stories as well as his hearers did in listening to them. When the writer was in attendance at the New London Literary and Scientific Institution, now Colby Academy, with other students, he was sitting around the stove in a store on winter's eve, when he heard the governor relate this story:

A man by the name of Bunker, living almost under the shadow of Keenawee, thought that he had a call to preach, but was not quite sure of it. His mind was in a state of uncertainty for some time. One night, just at dusk, he was passing by a mill pond in a town adjoining New London, where the bullfrogs, or "paddockes," as the boys called them, were holding high carnival, and he thought that he heard them calling to him, singly, and then in full chorus: "Bunker, go preach! Bunker, go preach! Bunker, go preach!"

That, to his uneducated mind, settled the question of a "call," and it is said that he told the story before the council that ordained him. At any rate, he was accepted and ordained, not on account of his learning or eloquence, but more, perhaps, on account of his simple-mindedness, and he did good work in the hill towns in the Granite state.

### ENGLAND INTERESTED IN COTTON.

That Country Dependent Upon Us for its Prosperity.

Uncle Sam holds the prosperity of Great Britain in his hand. Few realize the extent to which British industry is dependent upon the cotton growers of the United States. Practically all the raw cotton is imported by British ships, the cotton exports are handled by British ships and merchants, and the entire profits from the industry are thus enhanced by many millions. The fourth of England's gross profits from cotton were derived from the manufacturing of the American product. The statistics are as significant from an American viewpoint as from the English. American shipping might profit largely from the cotton carrying trade, and American manufacturers might secure all the profits that now fall to the English. Many far sighted Englishmen already appreciate the possible result of such an awakening on the part of Americans. They know that the loss of the American raw product from any cause would precipitate a period of industrial depression more severe than any recorded in the past, or possible in any industry. It is on this account that every effort is made to develop new cotton fields in the cotton belt of the earth. It seriously is suggested that English capital be invested in the southern states, in order to secure land enough to raise at least 3,000,000 bales a year.

### IN THE WILDS (?)

Mary—Oh, Jane, don't you just love roughing it this way?  
Jane—I perfectly adore it! Have some more strawberry short cake.—Brooklyne Life

### HOBBS FORETELL WEATHER.

In the country you have no need of a better weather bureau than a drove of hogs. By their actions it is easy to tell the approach of a storm, a cold wave or a hot spell. When you see a sow going to her quarters to put her bed in order, picking up straw and leaves with which to render it comfortable, mark it down that a northeaster is coming and will continue for three or four days.—N. Y. Press.

### WONDERFULLY PERSISTENT.

Father—Is that young man capable of sustained effort?  
Daughter—Well, you ought to see him trying to color a meerschaum pipe!

## The Young Physician.

WHAT HIS EXPERIENCE PROVED.

In the early stages it was usually the duty of a practicing physician to risk many miles every day on his regular rounds of visits upon his patients. One day a young son who had received a splendid medical training in one of the best medical colleges of that day was accustomed to ride ten, twenty, thirty miles or more visiting the sick and afflicted. His success was won phenomenal. Doctors and families called him for consultation to towns at considerable distances by rail. His specialty was the cure of those common and distressing diseases of women. He had early discovered that by combining the extracts of the following medicinal plants, in just the right proportion, without the use of alcohol his "Prescription" almost invariably cured such cases. Later, in order to place this remedy before the public in a more readily accessible form, he established a laboratory at Buffalo, N. Y., where purest quality chemicals were put in charge to accurately prepare his "Prescription" and put it in a "patent medicine" bottle, in just a "patent medicine" but a true and genuine for women, and a regular physician's prescription, and contains the following ingredients: Lady's Slipper root, Black

choke root, Cassia root, Blue Cohosh root, Indian Root, and chemical 7 pills in all.  
It is a most perfect medicine for all cases of Female Complaints, such as Pains, Leucorrhoea, Menstrual Disorders, etc. It is a most perfect medicine for all cases of Female Complaints, such as Pains, Leucorrhoea, Menstrual Disorders, etc. It is a most perfect medicine for all cases of Female Complaints, such as Pains, Leucorrhoea, Menstrual Disorders, etc.

It is a most perfect medicine for all cases of Female Complaints, such as Pains, Leucorrhoea, Menstrual Disorders, etc. It is a most perfect medicine for all cases of Female Complaints, such as Pains, Leucorrhoea, Menstrual Disorders, etc. It is a most perfect medicine for all cases of Female Complaints, such as Pains, Leucorrhoea, Menstrual Disorders, etc.

I want to tell you of the great improvement in my health since taking your "Favorite Prescription," says Mrs. H. J. Jones, of Evansville, Ind. "When I began to use it I was so weak and nervous, and my head ached so much that I could not get on my feet. After taking a few bottles of your medicine, I felt better, and my head ached no more. I am now as well as ever, and I can do all my usual work. I am sure that your medicine is a most perfect medicine for all cases of Female Complaints, such as Pains, Leucorrhoea, Menstrual Disorders, etc."

Send 3 one-cent stamps to cover cost of mailing and get a copy of the "Common Sense Medical Adviser," over 1000 pages. Address Dr. R. V. Pierce, Buffalo, N. Y.

## THICKNESS OF EARTH'S CRUST.

Some Valuable Information Obtained by British Scientist.

Information of a valuable character concerning the thickness of the earth's crust and the intensity of the heat of the globe's internal fires has been obtained as the result of a series of investigations continued over a prolonged period by Hon. R. J. Strutt, F. R. S., the well-known British scientist and son of Lord Rayleigh, says the Scientific American.

By testing rocks of many kinds from all over the world, Mr. Strutt has been able to determine the percentage of radium present in the earth's crust. He has ascertained that the presence of radium, whether it exists in minute or large quantities, can be easily denoted in all rocks of igneous origin, but the percentage is highest in granitic formations, while the basaltic rocks contain the minimum proportions of the element. He has also provisionally calculated the total quantity of radium present in each mile of depth of the globe's crust, from its uniform distribution, and estimates on this basis that not more than one-thirtieth of the total volume of the earth is composed of rocks which are to be found on the surface.

As a result of his mathematic deductions, he estimates that the depth of the earth's rock crust is approximately 45 miles. This deduction coincides to a certain degree with the calculations of Prof. Milne, the well-known seismologist, who has been engaged in investigations to the same end by the observation of the earthquake tremors. Prof. Milne concludes that at a depth of 30 miles below the earth's surface exist rocks whose physical properties are similar to those to be found on the exterior.

Furthermore, as a result of his researches, Mr. Strutt, in agreement with the assumption advanced by several astronomers, more especially Mr. Pickering, that the moon is not a "dead" sphere, but that it continues to possess volcanic energy. And moreover, he makes the startling statement that he is of opinion that the internal heat of that body is far in excess of that obtaining within the interior of our own globe.

## AMERICAN CLOTHES.

London Military Tailor Tells Us What He Thinks of Them.

G. B. Winter, the London tailor who came to America to design new uniforms for the army, was talking in Philadelphia about American clothes.

"I have only flattering things to say of the best American clothes," said Mr. Winter. "They don't differ at all from the best London clothes. They are made of pure, soft stuffs that fall in graceful lines. They are cut with propriety. They are worn with distinction. Hard things have been said here about English clothes, but I am sure that those who said them spoke in ignorance. At any rate, I can only say of the best American clothes that they are among the finest clothes in the world."

Mr. Winter, his hands in the pockets of his well-cut coat, laughed. "I don't, you see," he said, "reply harshly. I am not like the young girl whom I heard a bookseller once tell about. A young man failed to attend a dinner, though he had accepted the invitation. He sent no word of excuse, but the next day he called and said to the daughter of the house: 'I only called, Miss Morris, to apologize for disappointing you last evening, but really I couldn't find the time to come. If—' 'Oh, don't speak of it,' the young lady answered. 'We forgot about you entirely I'll offer everybody was gone, when father happened to notice what the decanter on the sideboard said the box of cigars on the mantel had each something left in them.'"

## The Old Reliable Jewelry House

of Hopkinsville is, after all, the best place to get anything in the jewelry line. There's a record behind us, a record of over thirty years; a clean record of satisfied customers, a record of honest dealing, for honest quality, honest prices. It's a record any jeweler might feel proud of. And when we sell an article we have in mind that we have a record to maintain, and no slipshod methods, no careless workmanship, no lack of quality, is ever allowed to mar the record of the past. But to improve, if possible, this record, in our own aim, and goods are sold for as low a price as it is possible to sell reliable goods.

It will pay you in the end to deal with the Old Reliable Jeweler.

M. D. KELLY.

## Marry To-Night.

The marriage of Mr. Richard I. Cooksey, of Crofton, to Miss Florence E. Dulin, of Fruit Hill, will take place at the home of the bride to-night. The bride is the attractive daughter of Mr. Joe B. Dulin. The groom is a popular young man in his neighborhood and will take his bride to his home in a few days. Rev. O. L. Weir, of Greenville, will officiate. Only a few close friends and relatives will witness the ceremony.

## JUNIOR SENATOR COMING FRIDAY

Will Speak at Court House to Large Crowd.

VETERANS TO ATTEND.

Speech Expected to Be Reply to Governor Beckham's Address.

Senator James B. McCreary will speak here next Friday and the McCreary Club of the city is making preparations to give him a big crowd.

A movement is on foot to have a number of the Confederate veterans attend the speaking in a body and a number of the Daughters of the Confederacy are arranging to do the same.

The large crowd that greeted Governor Beckham here has put the McCreary men on their mettle and no pains will be spared to give the Senator an ovation.

Although this county is put down in the Beckham column in an estimate in a Louisville paper, the following for Senator McCreary is large and formidable.

If the weather continues good, the crowd will undoubtedly be a big one.

## OLIVET MEETING

Came to a Close Last Friday Night.

The protracted meeting at Olivet Baptist church closed Friday night. There were twelve additions, ten by baptism. The two weeks' series was well attended and, notwithstanding the bad weather, only one service was postponed on account of rain. Rev. M. E. Staley, who assisted Rev. H. C. McGill, the pastor, returned Saturday to his home in LaGrange. Dr. McGill went to Providence Saturday, where he began a meeting. He will also be assisted in this meeting by Rev. Staley, who will arrive today. Olivet has granted her pastor a month's vacation and the pastor will devote his whole time to ministerial work, starting a series of meetings at Wheatcroft, his old home, as soon as the Providence meeting closes.

## GETTING READY

For Reception at South Kentucky College.

A committee has been appointed to arrange for a public reception at South Kentucky College. The committee has been at work for several days making out a program and attending to other details. As soon as the committee arranges everything the public will be notified. We understand that quite a number of people from a distance will be here and the function will be quite an event in the history of the institution. It is probable that some of the visitors will take parts in the order of exercises.

## Sea Shells For All.

EDITOR OF THE KENTUCKIAN:—When I came up here from Florida, I brought a lot of small pretty sea shells. Many of them came from the West India islands. Now that the summer is past, I will soon return home and do not care to carry shells back where they grow, even if they are pretty. I can get more equally as nice, and if you do not object to my saying so, I will say to the readers of the Kentuckian that I will mail ten or a dozen shells to any one who sends a stamp for postage. Please write a plain address.

Yours,

MRS. F. A. WARNER,  
Louisville, Ky.

## Is the Moon Inhabited?

Science has proven that the moon has an atmosphere, which makes life in some form possible on that satellite; but not for human beings, who have a hard enough time on this earth of ours, especially those who don't know that Electric Bitters cure headache, biliousness, malaria, chills and fever, jaundice, dyspepsia, dizziness, torpid liver, kidney complaints, general debility and female weakness. Unequaled as a general tonic and appetizer for weak persons and especially for the aged. It induces sound sleep. Fully guaranteed by R. C. Hardwick. Price 50c.

WHAT though a butcher bill he owes,  
Some two years overdue;  
And is in debt for coal and clothes  
And other items too?  
What though his little girls must sew  
Their daily food to earn?  
He's a good fellow, don't you know  
And always "buys" in turn.

What though his wife is worn and bent,  
Ill-clad, abjectly dumb?  
What though he takes her every cent  
And puts it all in rum?  
Should we refuse his hand, mayhap  
And his acquaintance spurn?  
Oh, no, for he's a whole-souled chap  
And always "buys" in turn.

—Louisville Courier-Journal

Don't be a "good fellow." It may become a habit with you—a habit so expensive as to cost all the prospects and opportunities for a successful life. Start a bank account and put into it from week to week as much money as you formerly threw away.

Commercial and Savings Bank,

PHOENIX BUILDING.
